

Manual test exercise

Feature: User verifies input field is working as expected

Scenario: Checking if input field is working correctly

GIVEN: a form with a 'Tentacles' input

WHEN: the user introduces the "<value>" in the input field

AND: the user clicks on the Send button

THEN: it shows the "<result>" message

Examples:

value	result	
6 10	Error	//A number smaller than
200 100	Error	//A number larger than
20 and 100	Success	//A number between 10
' '	Error	// Empty value
'dos'	Error	// A text value type
'@'	Error	// A symbolic value type
50 spaces	Error	// A value with blank
